

Tasca Avaluable 7.1

Exercici 1:

```
for $f in //factura
where $f/total >= 500 and $f/total <= 1000
return $f/client/raosocial/nom/text()
```

Exercici 2:

```
count(
for $r in //rebut
where $r/linies/producte/descripcio = "Porquet de xocolata negra"
return $r
)
```

Exercici 3:

```
sum(
for $p in //producte
where $p/descripcio = "Porquet de xocolata amb llet"
return $p/quantitat * $p/preuunitari
)
```

Exercici 4:

```
for $r in //rebut
let $total_q := sum($r/linies/producte/quantitat)
where ($total_q = 2 or $total_q = 50)
return data($r/@numero)
```

Exercici 5:

```
for $f in //factura
let $nom := $f/client/raosocial/nom
let $total := $f/total
order by number($total) descending
return concat("Client ", $nom, ". Total factura: ", $total)
```
